

# SAFE CRUISING GUIDELINES

*Like you, we can't wait to get out and enjoy a cruise, because we all know #lifeisbetteronaboat!  
Here is what we are doing, and what we ask of you, so we will have a safe, enjoyable trip!*

 Before you attend, please **consider whether you are healthy** and free from known exposure to COVID-19, so that we do not spread the disease among us. If you are unwell, or suspect you have been exposed, contact us as soon as possible at 989-891-BOAT to change your reservation.

**Please wear a mask** if you can, as much as you can! The crew will be wearing masks while working this season as long as guidance recommends we do so.

Tables will be spaced apart in dining areas. Chairs will be spaced apart or removed in most other areas. You may choose to sit or stand with the party or group you arrived with, but **please distance yourself from others.**

For events with catering, **servers will deliver plated meals** instead of having guests visit the buffet. We will sanitize tables after each seating.

For many events, we will offer **contactless pre-sale of drink tickets** prior to the cruise to reduce cash handling and the number of transactions handled onboard. Bar selections will be available in sealed cans and bottles only.

Please **avoid queuing up** for drinks at the bar. Spread apart, wait for others to complete their order, or wait for a server to make the rounds and take orders.

**Wash hands frequently** or use hand sanitizer after touching surfaces that may have been touched by others.

Crew will be **cleaning and sanitizing** surfaces frequently during your cruise.

***Above all, be courteous to others,  
follow directions from the Captain  
and Crew and have a great cruise!***
